

# App Store – Get Involved

**Want to publish your own app in our App Store?**

## AT A GLANCE

Should you have an application that is doing something useful get in touch with us and you can be involved with the app store.

You don't have to be a developer to make something useful.

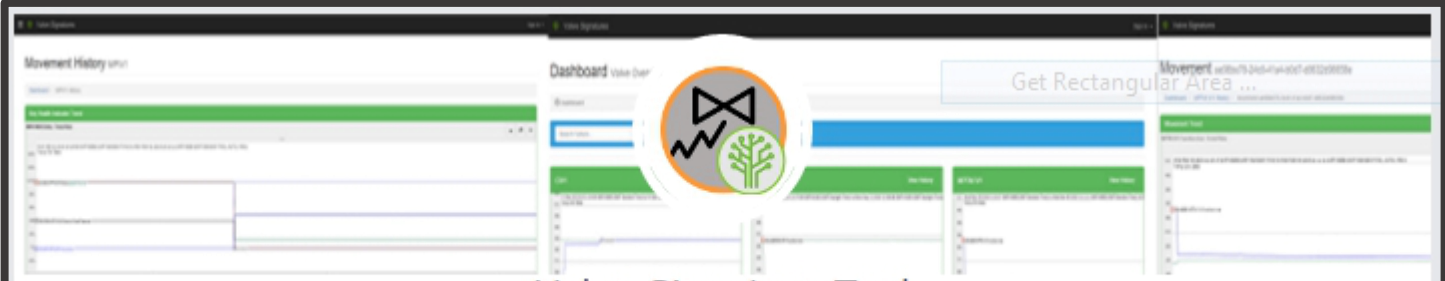

We have the tools to allow excel spreadsheets to be commercialised and versioned – allowing users to be safe in the knowledge that they are using the most up to date version.

## BENEFITS

You'll share in any profit made in our app store.

See how your app rates against other apps in our app store.

### Intelligent Plant – Valve Signature Application

**Valve Signature Tool**

Upload subsea valve data for instant diagnosis and trending over time with our unique online signature tool. Monitoring valve health can predict failures, allowing maintenance and subsea interventions to be optimised.

### Intelligent Plant – Alarm Analysis Application

**Alarm Analysis**

Obtain a set of Key Performance Indicators compliant with EEMUA191 Rev 3, ISA18.02 and IEC62682. Measuring the performance of the Alarm System is the first step towards safety and uptime on your plant.
